In this paper, we analyze which name takes longer to type: Ed or Thanassis. We performed 40 samples in total to determine which takes longer. Our experiments show that Ed takes 2.07 seconds to type on average, compared to Thanassis, which takes 8.92 seconds on average. This can be seen in Figure 1.

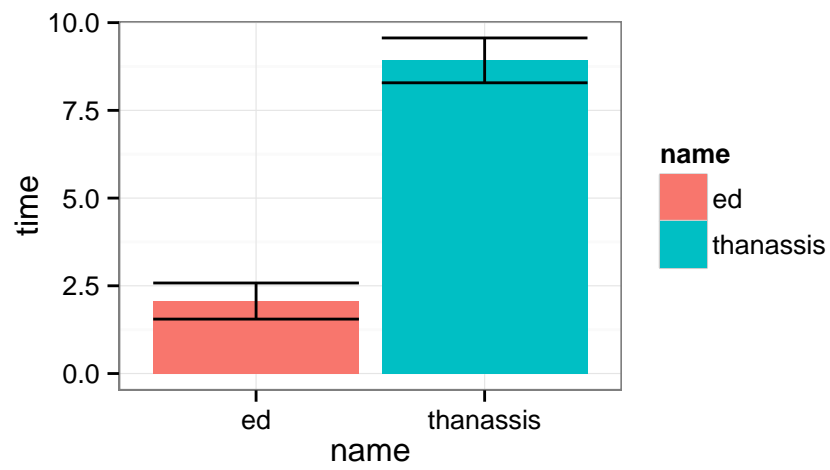

Figure 1: The sample mean time it takes to type Ed and Thanassis in 40 samples. Error bars show 95% confidence interval.
